NON-WOVEN
ABRASIVES

RAPID Edge Deletion for the
Flat Glass Market ... NEW!!!

EDGE DELETE PRO

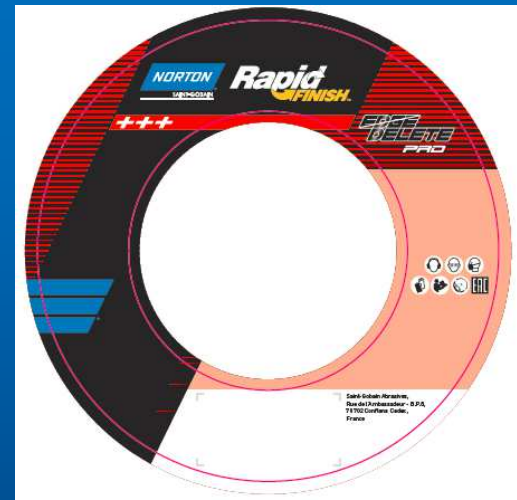

**DESIGNED & APPROVED FOR THE
NEW SAINT-GOBAIN GLASS
'EASYPRO' COATINGS**

NORTON

SAINT-GOBAIN®

New Product Works on ALL coated glass Part of Rapid Finish Family

NORTON

SAINT-GOBAIN

**Rapid
FINISH**

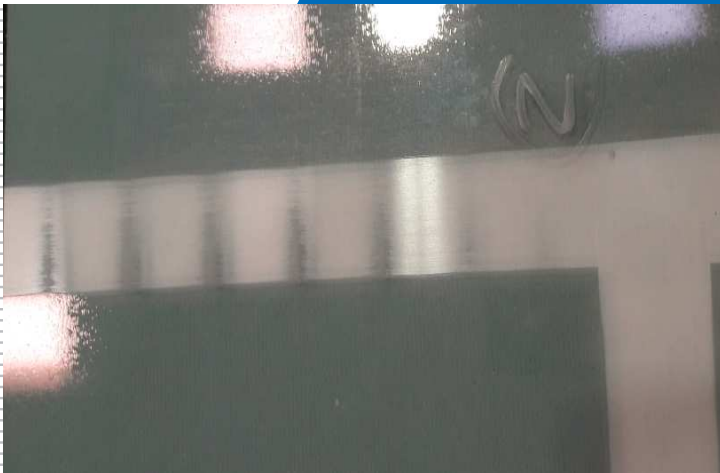

Features	Benefits
Fast grinding for all machine types	50% faster deletion Vs. Competitors - Decrease cycle time
New sharp Silicon Carbide grain	Can delete the hardest multi layer glass coatings in one pass
Able to delete the latest generation of high performance technical glass	Faster deletion produces less heat - less chance of glass breakage
Soft grade of wheel	Certified for Saint-Gobain Glass 'Easypro'
Open porous structure	Allows more wheel to contact grind area giving unrivaled deletion quality
Reinforced Core	Wheel does not bounce - reduced 'Striping'
Can be used wet or dry	Anti-Loading gives reduced need for dressing = Longer life wheel
Not affected by grind pressures	Increased M.O.S. & no risk of machine spindle damage
	Cutting oil does not affect performance
	Can be used safely up to 3 bars

**DESIGNED & APPROVED FOR THE
NEW SAINT-GOBAIN GLASS
'EASYPRO' COATINGS**

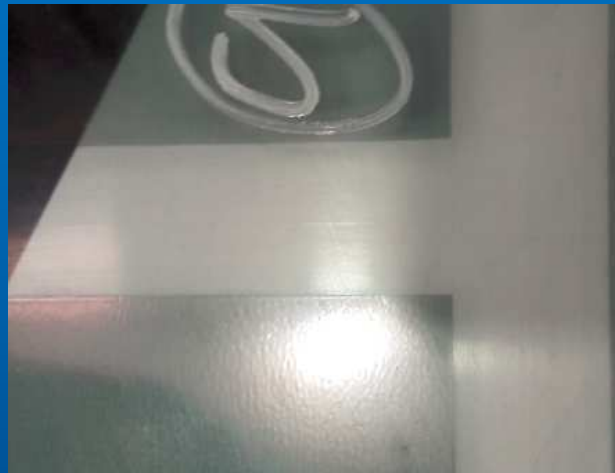

NON-WOVEN ABRASIVES

Best quality edge deletion, every time

Example of poor quality edge deletion
